### **DETAILED ACTION**

***Note: This is in response to Amendment filed 09/29/2006.***

#### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 103-112 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Brady et al. (U.S. 6,177,522).

Brady et al reference discloses the method steps as recited in the claims such making a prosthesis (foam graft) which comprising the steps of extruding a thermoplastic elastomer with the aid of physical and chemical blowing agents to produce a foamed graft.

#### ***Response to Arguments***

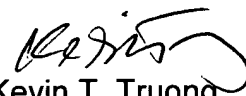

3. Applicant's arguments, see remarks, filed 09/29/2006, with respect to the rejection(s) of claim(s) 102 under Zilla '857 et al have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Brady et al. (U.S. 6,177,522).
